Trailers

Skeleton - Used for transporting 20 and 40FT containers.

Flat Bed - Perfect for transporting oversized, bulky or heavy cargo such as construction materials.

Low Bed - This type of trailer is widely used for transporting heavy cargo and tall loads.

Drop Deck - Suitable for hauling cargo that might exceed height restrictions such as machinery and construction equipment.

Extendable - Ideal for transporting long or irregularly shaped cargo that would not be suitable for a standard trailer.

Side Loader - Widely used for self loading and unloading shipping containers in tight spaces.

CONSORTIUM

Paragon Transportation is a subsidiary of Muneshwers Limited that aims to provide commercial transportation solutions to all clients and partners.

Seven Seas Guyana Inc. is a joint venture formed in early 2025 between Guyana Shore Base Inc. and Seven Seas Energy. The company mobilized a fleet of 113 brand-new Cargo Carrying Units from Colombia, forming the foundation of its operations and has secured contracts with Saipem and Halliburton.

Guyana Shorebase Inc. - **Estd. 2017**
Over the past eight years, GYSBI has continuously expanded to cater to the needs of the industry and now serves as the preferred onshore hub for oil and gas operators.

Muneshwers Limited

Muneshwers Limited - **Estd. 1945**
Over the past 70+ years, Muneshwers has established itself as a leader in multiple industries such as Oil&Gas, Construction, Shipping and more.

Paragon Construction, a subsidiary of Muneshwers Limited brings extensive expertise in earthworks, electrical and pipeworks. Notable large-scale projects include the Muneshwers Shipping terminal and a 15-acre industrial park development.
